1. Ask the patient about the history of the pain and his/her intentions to be relieved from it.
2. Hold the NHW at “Node B” and Directly point “Node A” to pain area or use the reflexology Foot and Hand Chart to see the Nerve Ends of a certain parts of the body.

# Right Hand Rule

*Learning the Magnetic Fields in a Conductive Material with current flowing.*

Right Hand Rule says that the magnetic field lines produced by a current-carrying wire will be oriented in the same direction as the curled fingers of a person's right hand (in the "hitchhiking" position), with the thumb pointing in the direction of the current flow. **This makes a Counter Clockwise Flow of Fields (Positive +).**

The magnetic field around a current carrying conductor.
